5	11
6	12
7	13

14 Team

Shown on the left is the 14 team fixture format used by the Bristol North West Skittles League. It ensures that shared alleys will always avoid fixture clashes.

For reference - check your number against the issued fixture plan - you will note that you are always opposite the corresponding number - thus avoiding any possible fixture clash.

Around 80% of teams share their alley with another team - mostly in the the North West but occasionally from another league. Providing the other league operates the same 14 team plan (most leagues do) - you will never clash because that team will have been allocated the opposite number .

If you share your alley with a team from another league that uses the 16 team plan (one or two that I am aware of), a different scenario is applied. Don` t be alarmed if your number does not confirm with the format shown. A different formulae has been applied which means you will never have a fixture clash!
